Sir:

In response to the Official Action dated June 13, 2002, Applicants respectfully request the entry of the following amendments, and submits remarks for the Examiner's consideration. Applicants amend the Application as follows:

**Marked-Up Version Showing Changes Made to the Claims**

1) (Twice Amended) A recombinant baculovirus comprising an expression vector for use in the production of immunoglobulins in an insect cell, said expression vector comprising:

a first expression cassette comprising a first sequence coding for at least one part of an immunoglobulin H chain, wherein said first sequence is under transcriptional control of a first baculovirus promoter,

a second expression cassette comprising a second sequence coding for at least one part of an immunoglobulin L chain, wherein said second sequence is under transcriptional control of a second baculovirus promoter; wherein
